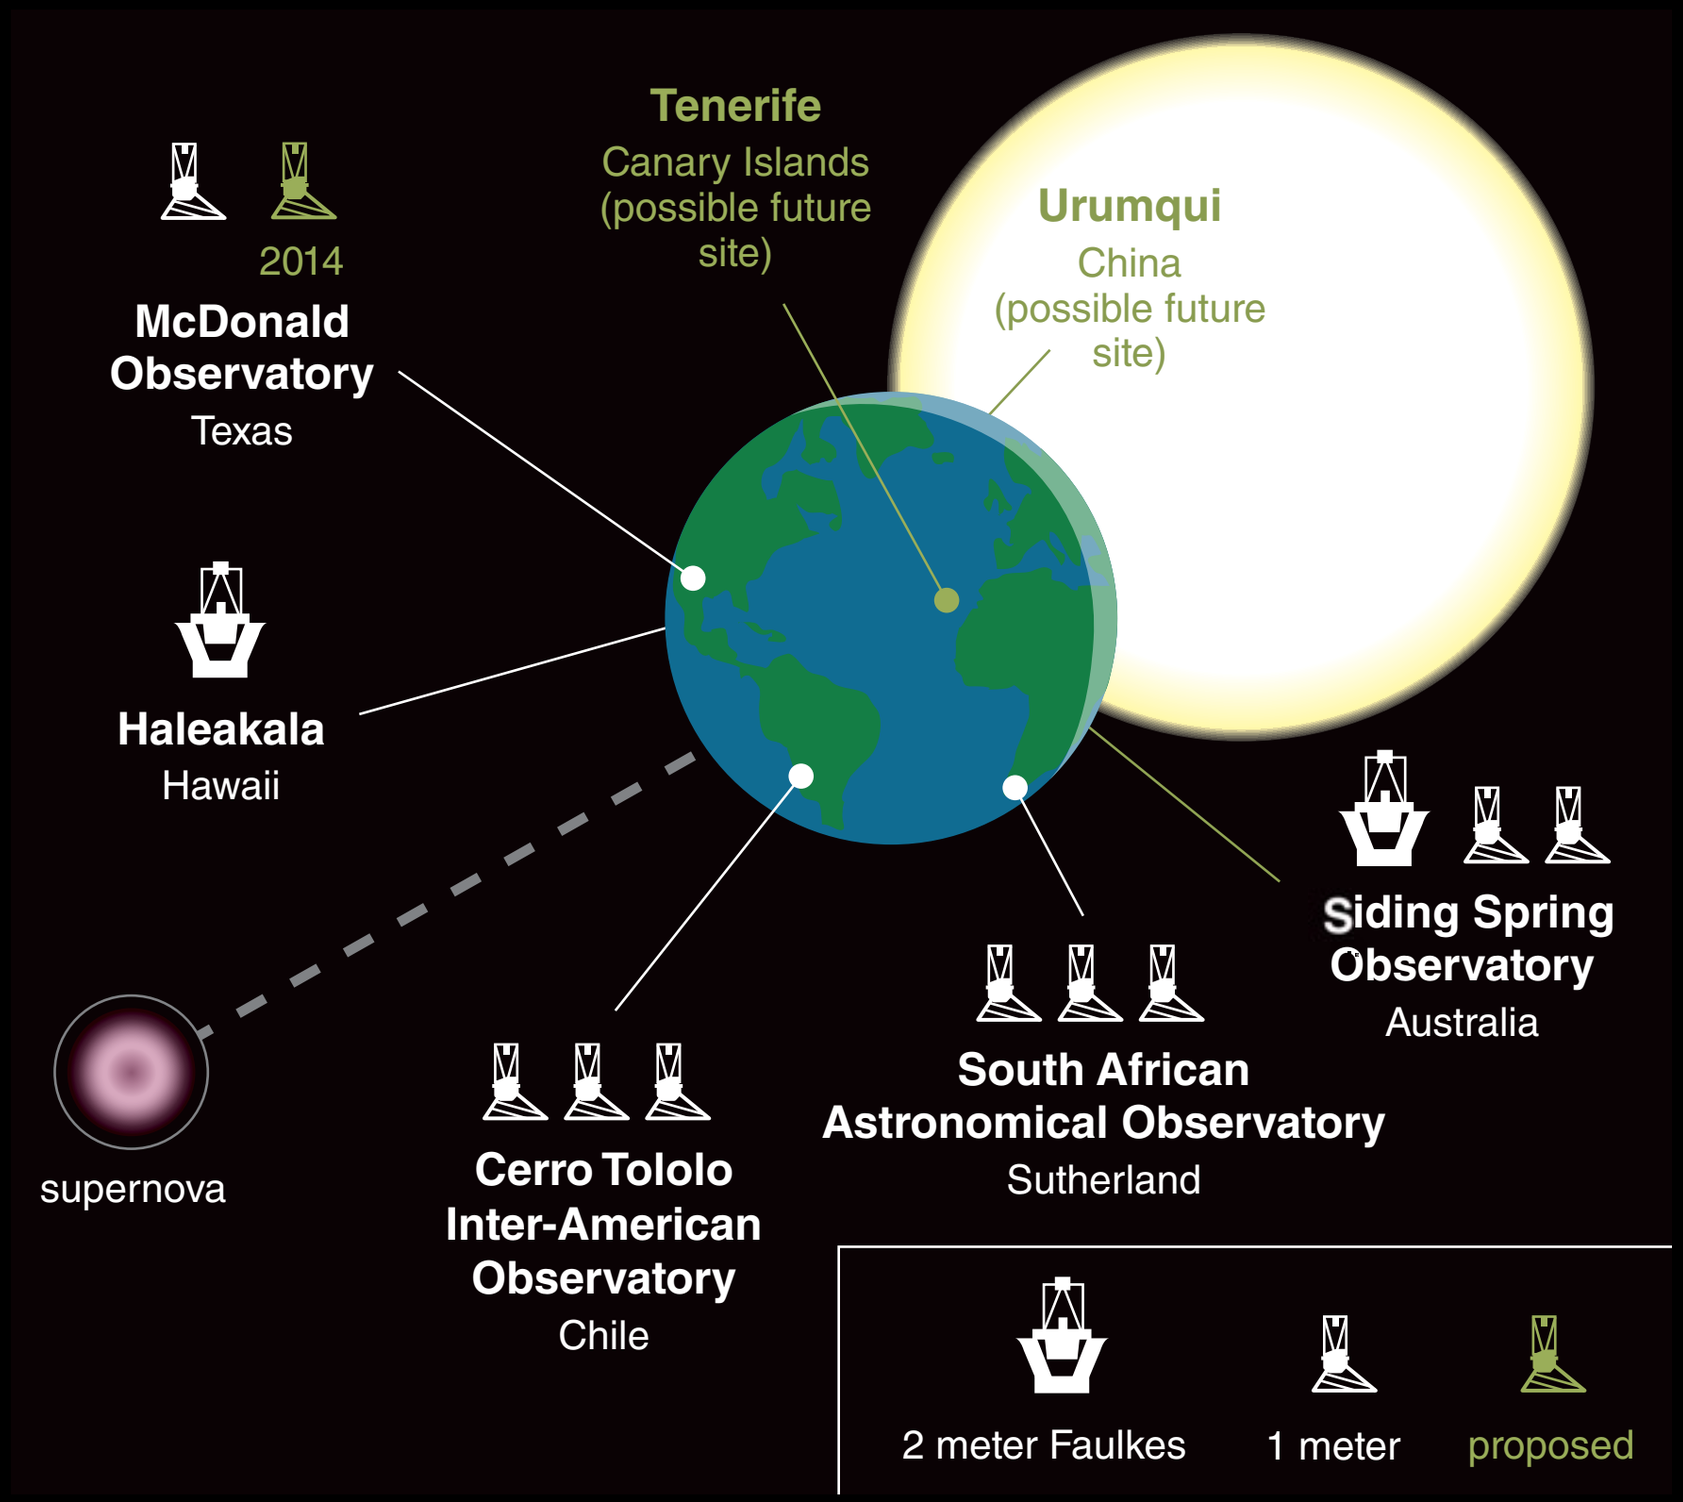
D. Andrew Howell
Las Cumbres Observatory Global Telescope Network
University of California, Santa Barbara

12 robotic telescopes operating as a single facility.

1m imagers (coming early 2014): 26.4' x 26.4' FOV

2m instrumentation: FLOYDS spectrographs: R~400 covering 325nm -- 1000nm in one pointing (cross dispersed).

Can go down to V~20 mag with S/N=10 in 1 hour


Paper: Brown et al. 2013, astro-ph/1305.2437.
